

Connect your existing patient account

Open the personal invitation from the clinic and connect using the passkey that already belongs to your patient account.

1 Check the invitation

Where you are: The personal invitation shows your name and the workplace that wants to connect.

What to do: Check the details and select Continue with passkey.

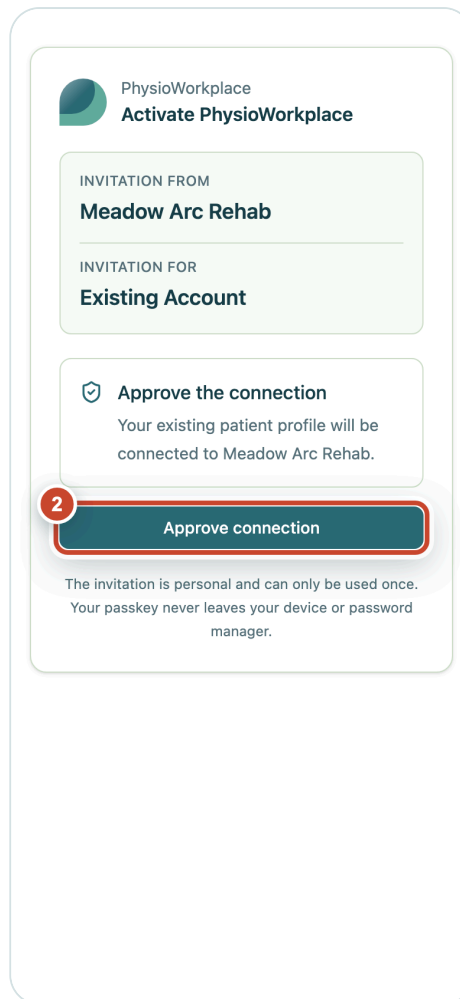

Complete when: Your passkey is verified and the connection approval page opens.

2

Approve the connection

Where you are: The page shows which workplace will connect to your patient account.

What to do: Select Approve connection when the details are correct.

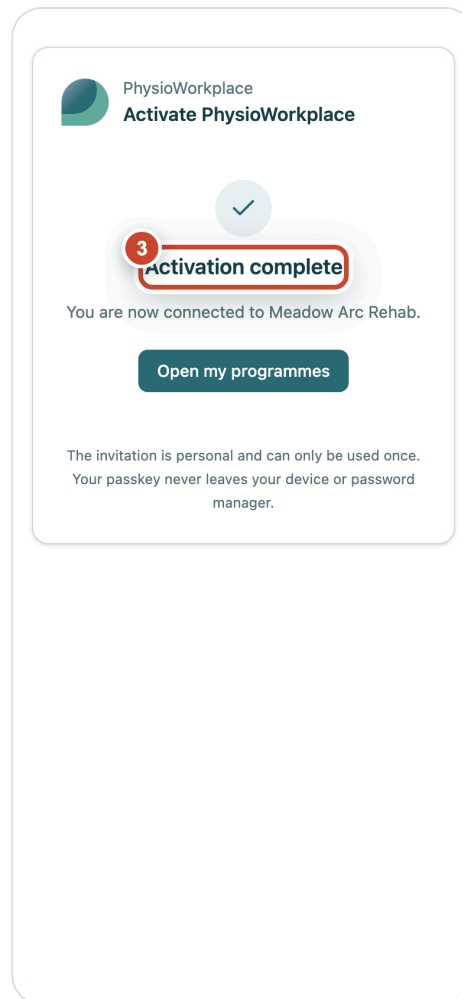

Complete when: The heading Activation complete appears.

3

Check the connection

Where you are: The page shows Activation complete and names the workplace.

What to do: Check that the correct workplace is shown.

Complete when: Your existing patient account is connected to the workplace.
